1. AI Transparency Notice

Last updated: September 12, 2026

EU AI Act Compliance (Regulation EU 2024/1689)

Per Article 50 of the EU AI Act (effective August 2, 2026), deployers of AI systems must inform natural persons that they are interacting with an artificial intelligence system. This notice fulfills that obligation.

1.1 AI Disclosure

OmniParse uses artificial intelligence. Specifically:

- Document parsing: A vision-language model (VLM) analyzes uploaded documents (PDFs, images) to extract structured invoice data.
- Chat assistant: A large language model (LLM) generates responses to your questions about your invoice data.
- Artifact generation: The chat AI may generate structured data (tables, charts, summaries) based on your requests.

You are interacting with AI-generated output throughout the Service. All parsing results, chat responses, and generated artifacts are produced by AI models and should be treated accordingly.

1.2 System Classification

Based on the intended purposes and functionality of the Service, we currently do not intend the Service to perform any of the high-risk functions listed in Annex III of the EU AI Act. The Service is nevertheless subject to applicable transparency requirements under Article 50, including those applicable to AI systems that directly interact with users.

As the provider of the Service under our own name and brand, we acknowledge our responsibilities under the EU AI Act. This assessment may change if the Service is used in high-risk contexts.

1.3 Technology Details

- Type: Document understanding and natural language processing
- Components: Vision-language model (VLM) for document parsing, Language model (LLM) for chat
- Purpose: Extract structured data from documents and provide conversational analysis
- Data processed: Invoices and related documents may contain personal data (e.g. names, email addresses, phone numbers, bank account details, signatures). Depending on how the Service is used, we may process personal data on behalf of users or their organizations.
- AI providers: We may use multiple third-party AI providers to process uploaded content. The provider used for a particular request may depend on availability, capacity, configuration, and other operational factors. A current list of subprocessors and applicable processing locations is available in our Privacy Policy.

1.4 Known Limitations

The AI may make mistakes. Specific risk areas include:

- Inaccurate extraction: Low-quality scans, unusual layouts, handwritten text, or non-English documents may produce errors.
- Hallucinations in chat: The AI may generate plausible but factually incorrect information about your data.
- Artifact errors: Generated tables, charts, and summaries inherit any extraction or reasoning errors.
- Currency and formatting: May misinterpret currency symbols, date formats, or number formatting across regions.
- Calculation errors: Calculations and statistics generated by the Service may contain errors, including errors caused by incorrect extraction, interpretation, aggregation, rounding, currency conversion or other processing. You are responsible for independently verifying results before relying on them.
- Confidence indicators: AI-generated confidence indicators are heuristic signals intended to help prioritize manual review. They are not statistical probabilities and do not constitute a guarantee of accuracy.
- Provider availability: AI providers may impose rate limits, discontinue models, or become unavailable.

Always verify AI-generated data against your original documents before using it for any purpose where accuracy matters.

1.5 No Professional Advice

The Service is provided for informational and administrative purposes only and does not constitute accounting, tax, legal, financial or other professional advice. AI-generated calculations, classifications, summaries, recommendations and chat responses must not be relied upon as the sole basis for financial, accounting, tax, legal or business decisions.

Currency conversions, exchange rates, tax calculations and financial aggregations may be inaccurate or based on incomplete or outdated information.

1.6 Human Oversight

- Confidence indicators: Extractions include heuristic confidence indicators to help prioritize manual review. These are not statistical probabilities.
- Manual review: Users can review, edit, or delete any extracted data at any time.
- No autonomous decisions: The AI does not make decisions, categorize individuals, or take actions on its own.
- Feedback loop: Users can re-upload documents, correct results, and delete inaccurate data.

1.7 Data Handling and AI Training

- Processing by AI providers: Data may be temporarily processed, cached, or retained by AI providers for security, abuse prevention, monitoring, billing, debugging, or other purposes specified in their applicable terms. Retention periods and processing locations vary by provider and service configuration.

- **Stored on our side:** We retain uploaded documents for up to 30 days in the active application environment. Backup copies, security logs and data processed by third-party providers may be retained for different periods.
- **Model training:** We do not intentionally use customer documents or conversations to train or fine-tune AI models. Processing by third-party AI providers is governed by the applicable provider terms. The specific terms vary by provider, service tier (paid vs. unpaid), and product configuration.
- **Important note on free-tier AI APIs:** Some AI providers may have different data handling terms for free/unpaid API tiers compared to paid tiers. For production use involving personal data, paid API tiers may provide stronger data protection guarantees.
- **Metadata logging:** We log API request metadata (timestamps, success/failure, provider used) for operational purposes. We do not log the content of your documents to server logs.

1.8 Model and Provider Changes

AI models, providers and processing methods may be changed, updated, replaced or discontinued at any time without notice. Changes in models may affect extraction results, classifications, calculations and chat responses. The same input document may produce different results when processed by different models or at different times.

The Service is provided on an "as is" and "as available" basis. We do not guarantee uninterrupted, error-free or continuously available operation of the Service or any AI provider.

1.9 Your Rights as an AI System User

- Review original documents alongside extracted data
- Manually correct any AI-extracted fields
- Delete and re-upload documents to get new extractions
- Request information about the processing and factors relevant to an AI-generated result, where technically and legally available (contact us)
- Lodge a complaint about AI output quality (damr58h@gmail.com)
- You may stop using AI-powered processing and delete your data. Where supported, you may export your data for processing outside the Service.

1.10 International Transfers

AI processing is performed by Mistral AI (EU-based, Paris, France), Groq Inc. (US — SCCs confirmed), OpenRouter (US — pending), and Google LLC (US — pending). Under GDPR Chapter V, transfers to the US require appropriate safeguards. We rely on Standard Contractual Clauses (SCCs) consistent with the Schrems II ruling.

Provider	Location	SCC Status
Groq Inc.	United States	Confirmed in effect (Sept 12, 2026). EU SCC Module 2, self-executing. Law: Ireland
Mistral AI	Paris, France (EU)	EU-based — transfers expected to remain within EEA, subject to Mistral's terms.
OpenRouter	United States	Pending verification.

Google LLC	United States	Pending verification. DPA at cloud.google.com/terms/data-processing-addendum .
------------	---------------	--

1.11 Contact

- AI ethics concerns: damr58h@gmail.com
- Data protection / GDPR: damr58h@gmail.com
- Legal: damr58h@gmail.com

The Service is intended to comply with applicable laws in the jurisdictions in which it is offered. Users remain responsible for ensuring that their use of the Service complies with applicable local requirements.

2. Terms of Service

Last updated: September 12, 2026

2.1 Acceptance of Terms

By accessing or using OmniParse ("the Service"), you agree to be bound by these Terms of Service ("Terms"). If you do not agree to these Terms, you must not access or use the Service. These Terms constitute a legally binding agreement between you and Simon Curda ("the Operator"), the operator of the Service.

2.2 Description of Service

OmniParse is an AI-powered invoice extraction and validation platform. The Service uses vision-language models to extract structured data from uploaded documents (PDF, JPEG, PNG, WebP), validates the results, and provides analytics, anomaly detection, and conversational AI capabilities. The Service also includes IMAP-based email auto-capture for automatic invoice import.

The Service is not a substitute for professional accounting, tax, or legal services. AI-generated results may contain errors and must be independently verified before use.

2.3 Eligibility

You must be at least 13 years old to use this Service. The Service is not directed to children under 13. In jurisdictions where the age of digital consent is higher (e.g., 15 in Czech Republic, 16 in Germany), parental consent may be required. If you are under 18, you confirm that you have obtained parental or guardian consent.

2.4 User Responsibilities and Warranties

You represent and warrant that you have all rights, permissions and lawful authority necessary to upload, process and transmit documents, emails and other content through the Service.

You must have the legal right to process any documents you submit. You must not upload documents containing personal data of EU data subjects unless you have a legal basis under GDPR. Unless explicitly supported by the Service, users must not upload documents containing special categories of personal data (health information, biometric data, information revealing religious or political beliefs, or other highly sensitive information).

When using email import, the Service may process email content, headers, attachments and other information necessary to identify and process invoices. Users should not forward emails containing information that they are not authorized to disclose to the Service.

You are responsible for maintaining appropriate backups of documents and data that are important to you. The Service should not be considered the sole repository or archival system for financial records.

2.5 Intellectual Property

Content you upload remains your property. OmniParse does not claim ownership of your documents or extracted data. The Service itself, including its code, design, and documentation, is the property of Simon Curda.

2.6 Data Processing

Your data is processed in accordance with our Privacy Policy, which is incorporated into these Terms by reference. We act as a data processor for personal data contained in your uploaded documents, and you are responsible for ensuring you have a lawful basis for processing such data.

2.7 AI Disclaimer

THE SERVICE USES ARTIFICIAL INTELLIGENCE FOR DOCUMENT ANALYSIS, DATA EXTRACTION, AND CONVERSATIONAL CHAT RESPONSES. AI OUTPUT MAY CONTAIN ERRORS, INACCURACIES, OR HALLUCINATIONS.

You must always verify AI-extracted data against the original documents before using it for financial reporting, tax filing, legal proceedings, or any context where accuracy is critical. The AI Chat assistant is a conversational tool, not a source of truth. Always cross-reference chat responses against the underlying invoice records.

AI providers: OmniParse uses third-party AI providers (Mistral AI, OpenRouter, Groq, Google Gemini). Groq has confirmed SCCs in effect as of September 12, 2026. OpenRouter and Google have SCCs pending verification.

2.7a No Professional Advice

The Service is provided for informational and administrative purposes only and does not constitute accounting, tax, legal, financial or other professional advice. AI-generated calculations, classifications, summaries, recommendations and chat responses must not be relied upon as the sole basis for financial, accounting, tax, legal or business decisions.

Currency conversions, exchange rates, tax calculations and financial aggregations may be inaccurate or based on incomplete or outdated information.

2.7b Calculation and Data Accuracy Disclaimer

Calculations and statistics generated by the Service may contain errors, including errors caused by incorrect extraction, interpretation, aggregation, rounding, currency conversion or other processing. You are responsible for independently verifying all results before relying on them.

AI models, providers and processing methods may be changed, updated, replaced or discontinued at any time. Changes in models may affect extraction results, classifications, calculations and chat responses.

2.8 Service Availability and Limitations (Including IMAP Email Capture)

The Service is provided on a best-effort basis. The IMAP email auto-capture feature is an auxiliary convenience, not a substitute for proper invoice management. The Service may fail to capture invoices for reasons including AI provider rate limits, classifier false negatives, attachment format issues, IMAP server-side issues, Vercel function timeout, network connectivity issues, pending review queue cap, and bugs.

You must not rely solely on the Service for time-critical or financially significant invoice management. You remain responsible for periodically checking that all expected invoices have been captured, manually uploading missed invoices, and maintaining backup processes.

OmniParse is not liable for missed invoices, late payment fees, vendor relationship damage, tax filing errors, or any other damages arising from the Service's failure to capture or correctly process an invoice.

Czech law grounding: Act No. 89/2012 Sb. (Civil Code) Section 2913 — contractual liability limitation. Directive 93/13/EEC Art. 3+4 — not unfair. Act No. 634/1992 Sb. Section 16 — does not disproportionately shift risk.

Liability cap: 12 months of subscription fees (paid users), zero (Free tier per Section 2913). Notification window: 30 days.

2.9 Disclaimer of Warranties

THE SERVICE IS PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT WARRANTIES OF ANY KIND. We do not warrant that AI extraction results will be accurate or complete. AI providers may experience rate limits, model deprecations, or outages.

2.10 Limitation of Liability

To the maximum extent permitted by applicable law, Simon Curda shall not be liable for any indirect, incidental, special, consequential, or punitive damages, including losses arising from reliance on AI-generated output that the user failed to independently verify.

Total liability shall not exceed the amount paid in the 12 months preceding the claim, or zero for free tier users.

Nothing in these Terms excludes or limits liability that cannot lawfully be excluded or limited under applicable law. This includes liability for intentional damage, gross negligence, and statutory consumer protection rights.

EU consumer note: Nothing limits statutory consumer rights under Czech Act No. 89/2012 Sb. and Act No. 634/1992 Sb.

2.11 Indemnification

You agree to indemnify and hold harmless Simon Curda from claims, damages, losses, and expenses arising from your misuse of the Service, violation of these Terms, or infringement of third-party rights.

2.12 Subscription Plans and Billing

Free: 15 invoices/month, 10 chat messages/month. Pro: \$49/month, 500 invoices. Plus: \$99/month, 2,000 invoices. Business: \$199/month, 10,000 invoices. Enterprise: \$499/month, unlimited. Annual billing offers 20% discount. Refunds handled case-by-case.

2.13 Modifications to Terms

We may modify these Terms at any time. Material changes will be notified via the Service or by email. Continued use after changes constitutes acceptance.

2.14 Right of Withdrawal (EU Consumers)

Under Czech Civil Code (Act 89/2012 Sb.) Sections 1829 and 1837, consumers have a 14-day right of withdrawal for distance contracts. However, per Section 1837(j), this right does NOT apply to digital services where the consumer has expressly requested the service to begin during the withdrawal period.

By using AI features, you expressly agree that the Service begins immediately and you lose the 14-day right of withdrawal. For paid subscribers: refund available if no AI features used within 14 days. Account deletion always available.

2.15 Consumer Information and Dispute Resolution

Pursuant to Section 1733 of the Civil Code, the following information is provided: Provider: Simon Curda, Czech Republic. Contact: damr58h@gmail.com. Service: AI-powered invoice extraction. Price: Free tier or \$49-\$499/month. Duration: Monthly subscription. Governing law: Czech law.

Czech ADR entity: Ceska obchodni inspekce (COI), Stepanka 567, Praha 2. Website: coi.gov.cz. ADR submission deadline: 1 year. EU ODR platform: ec.europa.eu/consumers/odr.

2.16 Governing Law and Dispute Resolution

These Terms are governed by Czech law. Disputes shall first attempt resolution by contacting damr58h@gmail.com. If unresolved within 30 days, submitted to competent Czech courts. For consumer disputes, the court of the consumer's domicile has jurisdiction.

2.17 Severability

If any provision is found unenforceable, it shall be limited to the minimum extent necessary, and remaining provisions shall remain in full force.

2.18 Non-Reliance on AI Output

You acknowledge that: (a) AI-extracted data is for informational purposes only; (b) OmniParse does not warrant accuracy; (c) You are solely responsible for verifying all extracted data; (d) If you rely on inaccurate AI output, OmniParse is not liable; (e) Confidence scores are estimates; (f) Chat responses may contain errors or hallucinations; (g) AI features may be modified or discontinued at any time.

2.19 Acceptable Use Policy

You agree not to: upload documents without rights; upload EU personal data without legal basis; use scraping/bots; attempt IDOR/injection exploits; upload CSAM/hate speech/illegal content; use for fraud/money laundering; reverse-engineer; create multiple accounts to bypass limits; burn AI quotas abusively.

Account monitoring: We monitor account activity for abuse. We reserve the right to freeze, delete, suspend, or report accounts. Frozen users see reason + can request reinstatement at damr58h@gmail.com.

2.20 Contact

For questions about these Terms: damr58h@gmail.com

3. Privacy Policy

Last updated: September 12, 2026

3.1 Data Controller

The data controller for personal data processed through this Service is Simon Curda (natural person, sole trader registration pending), based in the Czech Republic. Contact: damr58h@gmail.com (for all GDPR-related requests: access, rectification, erasure, restriction, portability, objection, and consent withdrawal). We aim to respond within 30 days as required by GDPR Art. 12(3).

3.2 Personal Data We Collect

Account information: name and email address. Password is hashed using bcrypt (12 rounds).

Documents you upload: files (PDF, JPEG, PNG, WebP) are sent to AI processing providers. The original file is stored for up to 30 days for preview. Extracted data is stored indefinitely until you delete it.

Chat history: messages and responses are stored until you delete them.

Technical data: IP address, browser type, request timestamps for security.

Local storage data: authentication token, theme preference, cookie consent.

3.3 Legal Basis for Processing (GDPR Art. 6)

Account creation: Contractual necessity (Art. 6(1)(b)).

Document parsing: Consent (Art. 6(1)(a)).

Chat interactions: Consent (Art. 6(1)(a)).

Terms acceptance: Consent (Art. 6(1)(a)). We do not collect or verify age at signup.

Security, service stability, and abuse prevention: Legitimate interest (Art. 6(1)(f)) — including account monitoring. Accounts suspected of abuse may be frozen or deleted.

Local storage preferences: Consent via cookie banner (Art. 6(1)(a) + ePrivacy Directive).

3.4 Data Retention

Uploaded document files: We retain for up to 30 days in the active application environment. Backup copies, security logs and data processed by third-party providers may be retained for different periods where necessary for security, legal or operational purposes. Extraction results remain until you delete them.

Extracted invoice data: Stored for as long as your account exists.

Chat history: Stored until you clear it or delete your account.

Server logs: Retained for 30 days by Vercel.

Account data: Stored for the duration of your account. Deletion available at any time.

Audit logs: Records of actions on your invoices, deleted when account is deleted.

3.5 Your Rights Under GDPR (Art. 12-23)

Right of access (Art. 15): Request a copy of your data. Use "Export my data" in Settings.

Right to rectification (Art. 16): Correct inaccurate data. Edit profile in Settings.

Right to erasure (Art. 17): Delete your account and all data from Settings.

Right to restriction (Art. 18): Limit how we use your data. Contact us.

Right to data portability (Art. 20): Receive data in machine-readable format.

Right to object (Art. 21): Object to processing based on legitimate interests.

Right to withdraw consent (Art. 7(3)): Withdraw at any time.

Contact: damr58h@gmail.com. Response within 30 days. Right to lodge complaint with supervisory authority.

3.6 Subprocessors and AI Providers

SCC Status (as of September 12, 2026):

Groq Inc. (US) — SCCs confirmed in effect. DPA with EU SCC Module 2 self-executing. Governing law: Ireland.

Mistral AI (Paris, France — EU) — EU-based. Transfers expected to remain within EEA, subject to Mistral's terms.

OpenRouter (US) — SCC status: pending verification.

Google LLC (US) — SCC status: pending verification. DPA at cloud.google.com/terms/data-processing-addendum.

Vercel Inc. (US) — Web hosting. DPA at vercel.com/legal/dpa.

Supabase Inc. (Ireland, EU) — Database hosting. DPA at supabase.com/legal/dpa.

Stripe Inc. (US) — Payment processing. DPA at stripe.com/legal/dpa.

Model training: We do not intentionally use customer documents or conversations to train or fine-tune AI models. Processing by third-party AI providers is governed by the applicable provider terms. The specific terms vary by provider, service tier (paid vs. unpaid), and product configuration. Data may be temporarily processed, cached, or retained by AI providers for security, abuse prevention, monitoring, billing, debugging, or other purposes.

EU users: AI processing via Mistral (EU-based) and Groq (US-based, SCCs confirmed) has appropriate safeguards. However, users should note that documents may contain personal data of multiple data subjects. The user uploading such documents is responsible for ensuring they have a valid legal basis under GDPR Art. 6 for processing that data, and that the transfer to AI providers is lawful under Chapter V. OpenRouter and Google remain as fallback providers pending SCC verification.

3.7 Security Measures (GDPR Art. 32)

Encryption in transit (HTTPS/TLS). Password hashing with bcrypt (12 rounds). JWT authentication with 7-day expiry. Rate limiting on auth endpoints. Content-Security-Policy header. HSTS with 2-year max-age. X-Frame-Options: DENY. Per-user data isolation (no IDOR). Prompt injection detection. Account deletion is transactional (cascade).

3.8 Children's Data (GDPR Art. 8)

The Service is not directed at children under 13. We do not perform age verification at signup. If you are under 18, you confirm parental or guardian consent. In the EU, the age of digital consent varies by Member State (15 in Czech Republic). If we learn that a child under the applicable age has registered without parental consent, we will delete that data promptly.

3.9 Czech Republic Compliance

Act No. 110/2019 Coll. — Czech GDPR implementation. Act No. 89/2012 Sb. — Civil Code. Act No. 480/2004 Sb. — Electronic Communications Act (cookies). Act No. 634/1992 Sb. — Consumer Protection. Supervisory authority: Urad pro ochranu osobnich udaju (UOOU), Pplk. Sochora 27, 170 00 Praha 7. Website: uoou.cz.

3.10 Data Processing Addendum (DPA)

This DPA applies when you (the Customer) act as a data controller and use the Service to process personal data on behalf of data subjects. This DPA reflects the parties' agreement with respect to the processing of personal data under GDPR Art. 28.

Roles: Customer is the data controller. OmniParse (operated by Simon Curda) is the data processor. We process documents and extracted data per your instructions.

Subprocessors: Vercel, Supabase, Mistral AI, OpenRouter, Groq Inc., Google LLC, Stripe Inc. Customer grants general written authorization for OmniParse to engage these subprocessors.

Data subject rights: Customer is responsible for responding to data subject rights requests. OmniParse will assist upon written request. Contact damr58h@gmail.com.

Security measures: AES-256-GCM encryption, bcrypt (12 rounds), TLS 1.2+, JWT auth, per-request user scoping, file auto-purge, account deletion cascade, audit log.

International transfers: Groq SCCs confirmed (September 12, 2026). Mistral EU-based. OpenRouter and Google pending verification.

Duration: DPA continues for the duration of your subscription. Upon termination, data deleted within 30 days (file binaries) and 90 days (extracted data, audit logs).

Acceptance: By uploading documents and checking the data transfer consent box, Customer accepts this DPA.

3.11 Changes to This Policy

We may update this Privacy Policy. Material changes will be notified via the Service or by email. Continued use constitutes acceptance.

3.12 Contact

Data controller: Simon Curda, Czech Republic. General contact: damr58h@gmail.com. Czech supervisory authority: uoou.cz.

4. Cookie Policy

Last updated: September 12, 2026

4.1 Overview

OmniParse AI uses local storage, not cookies, for essential functionality. This policy explains what data is stored in your browser and why.

4.2 What We Store

Authentication token (op_token): Stored in localStorage. Required for authentication. Deleted when you log out.

Theme preference (theme): Stored by next-themes. Remembers dark/light mode.

Cookie consent (omniparse_cookie_consent): Stored in localStorage. Records your consent choice.

Keyboard shortcuts (op_shortcuts): Stored in localStorage. Remembers custom shortcuts.

Legal consent (op_legal_consent): Stored in localStorage. Records GDPR data transfer consent.

Admin key (op_admin_key): Stored in localStorage. Admin dashboard access.

4.3 Legal Basis

Essential storage: Necessary for the Service to function (ePrivacy Directive Art. 5(3) exception).

Analytics: No analytics cookies are used. No tracking cookies. No third-party tracking.

Consent: Non-essential storage requires consent via our cookie banner.

4.4 Your Rights

You can clear local storage at any time via your browser settings. Clearing local storage will log you out and reset preferences. You can withdraw consent for non-essential storage via the cookie banner.

4.5 Contact
